Guidelines for the Preparation and Submission of Oration

Oration of the Academic Sessions of the University of Ruhuna is a formal scholarly presentation made by a senior academic based on his/her scholarly work. It provides a platform to disseminate the scientific knowledge gained through accumulated research experience of the academic on a particular subject supported by multiple publications based on original research findings. The written submission for oration should contain a substantial quantum of original research work carried out over a period of time and reflect the authority of the academic in the particular subject area. Submissions based on a single research project or review articles are generally discouraged. Delivering a scientific oration is a significant milestone in one's academic career and all academics are encouraged to submit orations.

The script of the oration not exceeding 3000 words should be submitted with a cover letter and the curriculum vitae of the applicant. Applicant must provide copies of his/her work cited in the oration if the organizing committee makes a request. The time allocated for the oration is 30 minutes.

The oration should evolve around key message/s and the orator should select the findings, results, and conclusions of the studies logically and appropriately to support the message/s. It should be written as a cohesive document with an uninterrupted and continuous flow from the beginning to the end. Submissions with several publications combined as isolated studies in a non-cohesive manner will be rejected.
